

CAD IT WINS THE TENDER FOR SUPPLYING SOFTWARE AND EXPERT SERVICES FOR POSTE ITALIANE S.P.A.'S REMOTE CONTROL SYSTEMS

The contract is worth Euro 1.1 million.

The service will last for 32 months.

CAD IT, leader in the Italian financial software market and listed in the STAR segment of Borsa Italiana, announces that it has been granted the contract for the supply of an application platform and the relative expert assistance for Poste Italiane S.p.A.'s remote control systems.

CAD IT's "Remote Control" application is a dynamic system for monitoring the various risk categories originating in both peripheral and central company structures.

The tool implements a constant analysis and assessment model at a process and business unit level, quickly identifying any sign of anomaly.

The system centralises the controls of hundreds of procedures on 14,000 Post Offices, deals with audit interventions, allows the planning of activities, prevents particular risk conditions from becoming more serious and guides actions for improvement.

The project foresees the supply of the license to use the platform and the relative expert services required for its integration and start-up as well as the relative ordinary and perfective maintenance.

The total value of the contract is Euro 1.1 million and the service will have a 32-month validity.

THE CAD IT GROUP

CAD IT is at the head of a group that represents one of the most dynamic organisations in the Italian Information Technology sector.

The group aims its operations at the banking-insurance sector, the business world and public administration, and has been offering software solutions, maintenance, customizing, integration and other correlated services, from application management to outsourcing and consulting to training for over 35 years.

The CAD IT Group, with head offices in Verona, operates in Italy through its own branches and associated companies in Milan, Rome, Prato, Padua and Mantua.

CAD IT is leader in the Italian software market for the banking sector with its main product, Financial Area, a programme which completely manages all functions connected to the negotiation, settlement and administration of security transactions, debentures, derivatives (in any currency) and adopted by the majority of Italian banking outlets.

In addition, the Group boasts a long-standing activity in the industrial sector and the capacity to offer solutions for e-business, credit and industrial companies in constant evolution.

Solutions for Public Administration is the most recent sector but one which capitalises the Group's traditional skills, such as its twenty-year experience in the development of systems for the computerisation of public bodies.
